HASNA OOTY TOURS

PROJECT WORKFLOW & TECHNICAL SPECIFICATION REPORT

Official Project Workflow, Architecture Specification & Deployment Guide | Grexotix

PROJECT QUICK REFERENCE & LIVE ENDPOINTS

- Live Web Application: https://praveepraveen012-cell.github.io/Hasna-Ooty-Tours/
- GitHub Main Repository: https://github.com/praveepraveen012-cell/Hasna-Ooty-Tours
- cPanel Deployment Package: hasna-ooty-tours-cpanel-upload.zip (Branches: main, cpanel-package, gh-pages)
- Primary Booking Channel: WhatsApp (+91 98948 61681 | https://wa.me/919894861681)
- Client: Hasna Ooty Tours (Ooty, The Nilgiris, Tamil Nadu, India) | Built by Grexotix (https://grexotix.com/)

1. EXECUTIVE SUMMARY & BUSINESS OBJECTIVES

Hasna Ooty Tours is a premier tour operator based in Ooty, The Nilgiris, specializing in 100% private car sightseeing, customized family vacation packages, honeymoon specials, and South India inter-city hill station tours across Ooty, Coonoor, Kodaikanal, Mysore, Coorg, Wayanad, and Coimbatore.

The primary goal of this project was to modernize the digital presence from an outdated static template into an intuitive, high-converting, modern travel booking prototype inspired by MakeMyTrip and global luxury travel portals. The core philosophy eliminates complex payment gateway friction by routing all inquiries, vehicle bookings, and package customizations directly to Hasna Ooty Tours verified WhatsApp travel desk.

Core Business & Engineering Pillars

- **Zero Upfront Payment Barrier:** Direct quotes and trip confirmations happen in real-time over WhatsApp with local Ooty drivers.
- **MakeMyTrip User Experience:** Full-width 16:9 banner, floating multi-parameter search bar with quick-picks, curated package cards, and fleet showcases.
- **Ultra-Responsive Design:** Mobile-first layout optimized for travellers using iPhones, Android smartphones, iPads, and high-DPI desktop displays.
- **Production Readiness:** Single-command build producing a clean static bundle for cPanel/LiteSpeed web hosting and GitHub Pages hosting.

2. TECHNOLOGY STACK & SYSTEM ARCHITECTURE

LAYER	TECHNOLOGY	VERSION / SPEC	PURPOSE & ARCHITECTURAL ROLE
Core Runtime	React.js	v18.3.1	Component-based UI, declarative state, fast VDOM
Build Tool	Vite	v6.0.7	Lightning-fast HMR, ES module bundling, tree-shaking
Styling	Tailwind CSS	v3.4.17	Utility-first styling, customized Nilgiri color palette
Iconography	Lucide React	v0.469.0	High-performance SVG icons (Compass, WhatsApp, Shield)
Motion Engine	Framer Motion	v11.15.0	Smooth micro-interactions, page transitions, modal fades
Routing	React Router DOM	v6.28.1	Client-side SPA navigation with dynamic parameter routing
Asset Engine	Custom assetUrl()	Dual-Mode Resolver	Seamless asset resolution across root and subfolder paths
Web Server	Apache / LiteSpeed	mod_rewrite (.htaccess)	Client-side SPA fallback (RewriteRule . /index.html)

3. END-TO-END USER EXPERIENCE & NAVIGATION FLOW

The website architecture is structured around an intuitive multi-step conversion funnel designed to guide visitors from inspiration to a confirmed WhatsApp booking:

VISITOR JOURNEY MAP

1. ARRIVAL & BRANDING: Sticky header with official 3D metallic badge logo, 24/7 phone hotline, and instant WhatsApp booking button.
2. INSPIRATION (HERO BANNER): 16:9 panoramic sunset tea garden view, live status badge ("Premier Nilgiris Private Car Service"), and primary CTAs.
3. SMART SEARCH (MAKEMYTRIP STYLE): Floating panel with quick chips (1-Day Ooty, Coonoor Estates, Honeymoon) + Date, Travellers, Pickup City.
4. AVAILABILITY & DISCOVERY: Dynamic filtering by destination, duration, tour type, and price range. Expandable full-day itineraries and inclusions.
5. VEHICLE SELECTION: Showcase of sanitized private cabs (Toyota Innova Crysta, Innova, Swift Dzire, Etios) with seating specs.
6. DESTINATION HUB: Deep-dive discovery cards for Ooty, Coonoor, Kodaikanal, Coorg, Mysore, Wayanad, Mudumalai, Kotagiri, and Pykara.
7. SOCIAL PROOF & FAQ: Genuine customer reviews, driver safety credentials, FAQ accordion resolving common travel questions.
8. CONVERSION & WHATSAPP ENGINE: Every CTA launches pre-formatted WhatsApp chat with complete itinerary details prefilled.

Key Pages & Component Hierarchy

- **HomePage (/):** HeroSection, SearchPanel, PopularDestinations, FeaturedPackages, ExploreAttractions, VehicleFleet, WhyChooseUs, Experiences, FAQ, FinalCtaBanner.
- **TourPackagesPage (/tour-packages):** Comprehensive catalog of 12+ tour packages with active search filters, duration sorting, vehicle options, and enquiry modal.
- **TourPackageDetailPage (/tour-packages/:slug):** Deep itinerary breakdown, daily schedule, places covered, inclusions, vehicle recommendation, and instant booking CTA.
- **TourTypesPage (/tour-types):** Categorized travel experiences: Family Holidays, Honeymoon Specials, Friends Group Trips, and Private Sightseeing.
- **AboutPage (/about):** Brand story, 100% private chauffeur guarantee, experienced hill-terrain drivers, mission, and fleet quality standards.
- **ContactPage (/contact):** Direct contact phone, WhatsApp link, Nilgiris base location, embedded Google Map, and validated enquiry form.
- **NotFoundPage (*):** Custom 404 page with fast back-to-home navigation and direct WhatsApp trip assistance.

4. WHATSAPP BOOKING & ENQUIRY ENGINE (TECHNICAL SPEC)

Rather than imposing payment gateway transaction fees or rigid online checkouts, the website employs a structured WhatsApp Click-to-Chat automation engine. The business operates on private, custom trip quotes tailored to arrival times, passenger counts, and hotel locations.

DYNAMIC MESSAGE TEMPLATE SCHEMA

Hello Hasna Ooty Tours,
I am interested in booking the following tour package.

Package Name: [Selected Package Title]
Destination: [Destination, e.g. Ooty - Coonoor - Mudumalai]
Travel Date: [Selected Date]
Number of Travellers: [Passenger Count, e.g. 3-4 Adults (Family)]
Tour Type: [Category, e.g. Family Tour Packages]
Pickup Location: [City / Station, e.g. Coimbatore Airport (CJB)]
Preferred Vehicle: [Vehicle, e.g. Toyota Innova Crysta (7 Seater Luxury)]

Please share the package details, availability and best price.
Thank you.

Technical Implementation: Handled in src/utils/whatsapp.js. Inputs are sanitized, dynamic values populated, encoded via encodeURIComponent(), and opened in a secure new browser window pointing to https://wa.me/919894861681?text=<ENCODED_MESSAGE>.

5. QUALITY ASSURANCE & AUTOMATED VERIFICATION

The repository includes an automated regression test suite (scratch/full_workflow_test.js) and asset integrity verifier (scratch/verify_assets.js) executed during every release:

TEST CATEGORY	ASSERTIONS VERIFIED	STATUS	DETAILS
Brand Assets	Logo Transparent PNG, JPG,	PASSED	Correct dimensions, alpha transparency, no artifacting
Header Sizing	h-10 sm:h-12 w-auto, py-3.5/py-2.5	PASSED	Zero vertical layout shift; strictly preserved header
WhatsApp Engine	Package, Vehicle & Contact formats	PASSED	Complete click-to-chat schema, phone 919894861681
Hero & Banners	Widescreen Sunset Tea Hill Banner	PASSED	Cache-busted image references with zero quality
Footer Legal	© 2026 Hasna Ooty Tours +	PASSED	All Rights Reserved + Powered by Grexotix link (new tab)
Data Integrity	12 Packages, 10 Destinations, 5	PASSED	Complete curated Nilgiri itineraries and verified fleet
Asset References	188 Local Image References	PASSED	Zero broken asset links across all pages and galleries
Build Output	dist/index.html, dist/404.html	PASSED	Single-page routing fallback configured for all static servers

AUTOMATED TEST SUITE SUMMARY

- Total Automated Test Cases: 32 Passing | 0 Failing (100% Pass Rate)
- Local Image Verification: 188 Image Files Scanned | 0 Broken Links Detected
- Production HTTP Status: 200 OK verified across GitHub Pages & local build

6. PRODUCTION DEPLOYMENT & OPERATIONS GUIDE

Option A: cPanel / Apache / LiteSpeed Web Hosting

A production-ready archive hasna-ooty-tours-cpanel-upload.zip is pre-configured for root-level public_html/ hosting with Apache mod_rewrite rules.

- **Step 1:** Log into your cPanel hosting account and open File Manager.
- **Step 2:** Navigate to your web root directory (usually public_html/ or your domain folder).
- **Step 3:** Click Upload and select hasna-ooty-tours-cpanel-upload.zip.
- **Step 4:** Right-click the uploaded .zip and choose Extract. Ensure files extract directly into public_html/.
- **Step 5:** Confirm the included .htaccess file is present. It ensures all sub-routes (/tour-packages, /about, /contact) route seamlessly without 404 errors.

Option B: GitHub Pages Automated Deployment

The repository is hosted at https://github.com/praveepraveen012-cell/Hasna-Ooty-Tours with two active deployment branches:

- **main branch:** Contains full source code, React components, Tailwind configuration, and test suites.
- **gh-pages branch:** Production build compiled with BASE_PATH="/Hasna-Ooty-Tours/" for direct live web browsing.
- **cpanel-package branch:** Stores the 1-click downloadable cPanel upload archive for instant access from any browser.

7. MAINTENANCE & CONFIGURATION MANUAL

TO UPDATE	TARGET FILE	INSTRUCTIONS
Phone / WhatsApp	src/config/site.js	Edit phone, phoneCall, or whatsappNumber. Updates
Tour Packages & Rates	src/data/packagesData.js	Add, remove, or modify titles, prices, itineraries, and
Destinations	src/data/destinationsData.js	Update destination highlights, travel tips, and hero banners.
